## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 7, 35, 37, 39-42 and 50 are rejected under 35 U.S.C. 102(b) as being anticipated by Applicant's prior art figure 1.

Applicant's prior art figure 1 shows an explosion-proof housing 2, at least one electronic device (not shown) mounted within the explosion- proof housing; a mast mechanically connected to the explosion proof housing 2; a solar panel array 8 mechanically connected to the mast; a radio antenna 4; and a plurality of wires (not shown) coupled to the solar panel array and radio antenna, the wires pass through a bore axially through the mast to enter the explosion-proof housing.

### ***Allowable Subject Matter***

3. Claims 13-34 are allowed.
4. Claims 2-6, 8-12, 36, 38, and 43-49 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2821

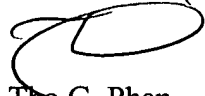

*Conclusion*

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Ramachandran et al, Culbertson et al and Meguro et al are cited as of interested and illustrated a similar structure to mounting assembly for electronic devices.
